Overview

Conceptual approach

Flyway

Create new database

Tool Needs

- Locate changes
- Given a DB
 - What changed?
 - Apply
 - DB mark applied

What You Will Build

- Payroll DB - greenfield
- Setup dedicated dev DB
- Create employees table

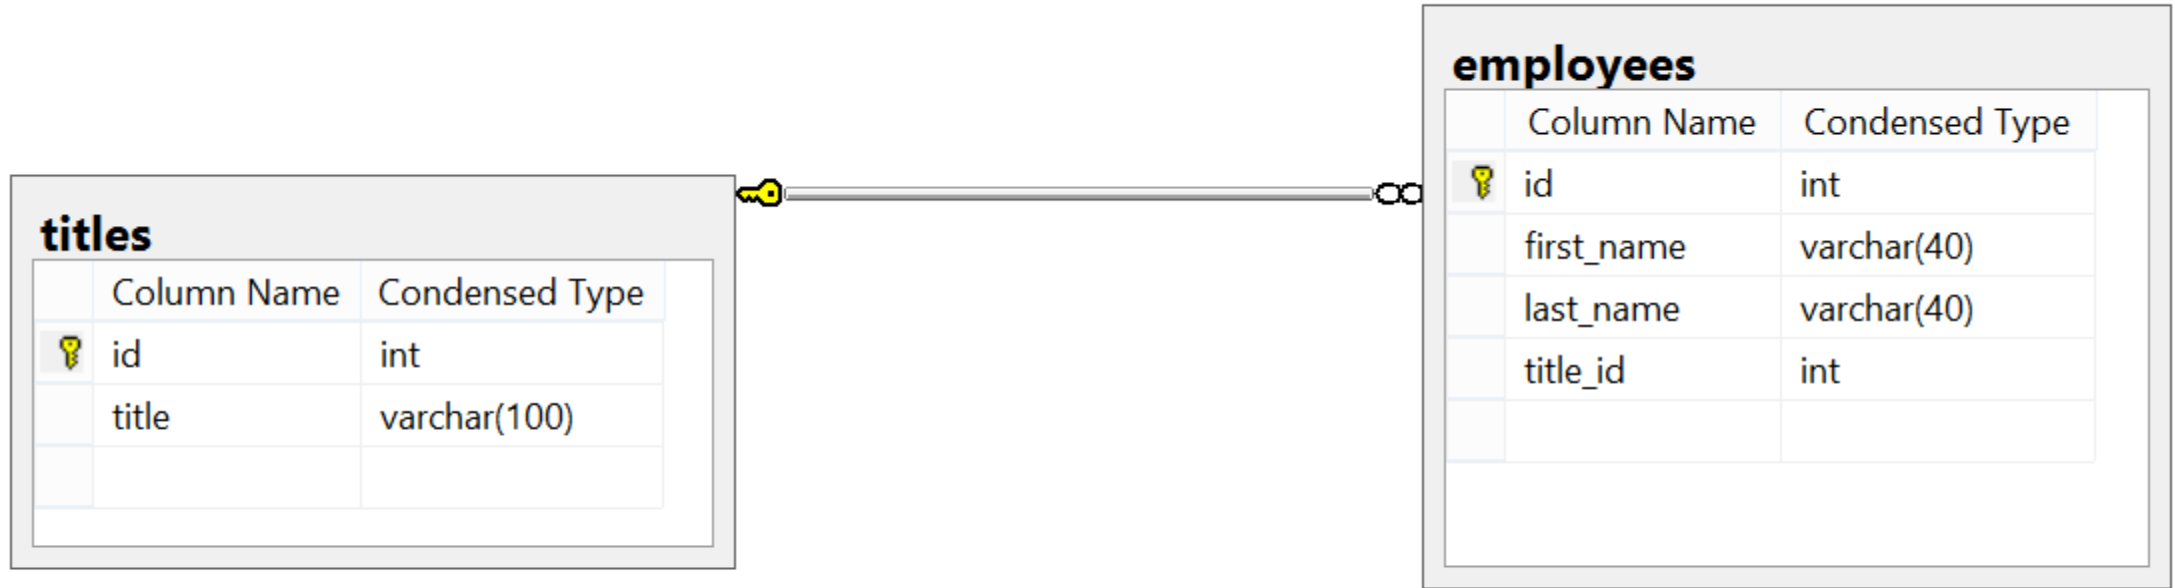

employees		
	Column Name	Condensed Type
	id	int
	first_name	varchar(40)
	last_name	varchar(40)

What You Will Build

titles		
	Column Name	Condensed Type
	id	int
	title	varchar(100)

employees		
	Column Name	Condensed Type
	id	int
	first_name	varchar(40)
	last_name	varchar(40)

What You Will Build

What You Will Build
