

# Transition Existing Databases

Wes Higbee

@g0t4 | [www.weshigbee.com](http://www.weshigbee.com)

---

# Transition Strategy

2. Align to Prod

3. Write Change Scripts

4. Mark Dev Version

5. Align to Prod

6. Mark v1

7. Migrate v2, v3...

1. Baseline

8. Mark v1

9. Migrate v2, v3...

# Payroll Database

2. Align to Prod

3. Write Change  
Scripts

4. Mark Dev  
Version

1. Baseline

5. Mark v1

6. Migrate to v2

# Alignment

- Clean house
- Strategies
  - Manual alignment
  - Create new Dev DB (migrations)
  - Create new Dev DB (prod backup)
